Secret

Plowed Strip- The Soviets have begun re-plowing the strip in the Ordubad area approximately 1 Oct. This work is done by two blue uniformed soldiers using a tractor-drawn plow.

Fences.\* New fence construction has been begun from Julfa eastward to Daste. Work is now in progress on the stretch from Daste eastward toward Ordubad, materials have been hauled to the construction area. This is a single fence of wire with poles 2 meters high and approximately 3 meters apart.

Communications. On one night at approximately 2300, signalling by lights was observed between the watch tower immediately west of the RR station and the border guard post to the east opposite the old customs building. It has frequently been observed that the Soviet border guard will fire a rocket between 1900 and 2000 from the area immediately in front of the RR station, this is always answered by another rocket fired from the area near Alice village, just northwest of Ordubad.

Mashh towers. Construction has commenced on a new watch tower with steel supports. This is located just across the river from Siah Rud.

Patrols. Every two hours the plowed strip is inspected by two soldiers carrying short machine guns. These soldiers wear the blue uniforms which were first observed about 25 September.

Troop Activity- No changes of personnel or troops were observed but commencing about 25 September the border guard was observed to be wearing blue uniforms.

RR Traffic- The passenger schedule continues as reported last month. There are always four blue-uniformed soldiers on the station platform. Freight traffic has decreased from average of eight trains per day last month to new level of 5 trains per day this month. (The enclosed freight traffic report gives time and number of cars and type of cars for each train on each day.)

Propaganda- The radio in Ordubad Station plays through a public address system all day and until 0030 hours in the night.

50X1-HUM

Other Changes- Machine gun emplacements are being prepared (apparently mere holes in the ground) between the river and ~~xx~~ Ordubad Station.

New highway construction is underway near Ordubad; the construction is using explosives with "dreadful burstings". A new large bridge has been begun south of Alice village.

Four tractors are kept parked in the station area.
